

OSA-1775-63

MEMORANDUM FOR : Chief, Technical Services Division
ATTENTION : AC/TSD/E&P
SUBJECT : Airborne Tape Recorder
REFERENCE : Memorandum for C/TSD from C/DD/OSA,
dated 26 September 1962, same subject,
(OSA-1461-62)

1. Reference stated an immediate requirement by Office of Special Activities, DD/R, for a small airborne tape recorder needed in support of present and future operations and suggested a course of action that would lead to the fulfillment of this requirement. During a telephone conversation on 1 April between Colonel Giller and Mr. [redacted] it was agreed that a contract currently being negotiated between TSD, [redacted] would be increased by a quantity of five terminal units with destruct capabilities and intercommunication adapters for flight use to fulfill the OSA/DDR requirement.

2. Enclosed for your information and retention is a copy of a proposal from [redacted] dated 18 January 1963, offering to produce the five recorder-reproducer systems with destruct devices and adapter cables at a price of [redacted], the first unit being delivered within three months. In the event that continued negotiations with [redacted] fail to offer a satisfactory price and delivery schedule, it is suggested that consideration be given the enclosed proposal.

3. It is requested that Development Division, OSA, be kept informed as to the action taken.

CONCUR:

EDWARD B. GILLER
Assistant Deputy Director (Research)

JACK C. LEDFORD
COLONEL, USAF
Assistant Director
(Special Activities)

Attachment: As stated
